

DHUA-W8S Specification

802.11 ac/a/b/g/n 2x2 wifi and Bluetooth 4.1 combo USB stamp module, QCA9378-7

Overview:

DHUA-W8S is an 802.11 ac/a/b/g/n dual band 2x2 wifi and Bluetooth combo USB stamp module designed for devices which require high throughput and lower-power consumption. It's a highly integrated module that supports 2-stream 802.11ac/a/b/g/n MIMO technology with data rate from MCS 0-15 in 20MHz/40MHz/80MHz channels, and Bluetooth 4.1 LE.

Advanced integrated coexistence features deliver superior Wi-Fi/Bluetooth coexistence to ensure the best possible wireless experience, maximum performance, and lowest power consumption.
